Update app/Http/Controllers/Auth/RegisterController.php

```php
protected function create(array $data)
{
        $user = User::create([
            'name' => $data['name'],
            'email' => $data['email'],
            'password' =>
bcrypt($data['password']),
        ]);

        $channelName = str_random(8);

        $user->channels()->create([
            'name' => $data['name'],
            'slug' => $channelName
        ]);

        return $user;
}
```

View Channel Route

```php
Route::get('/channel/{channel}',
'ChannelController@show');
```

View Channel Controller Show Method

```php
public function show(Channel $channel){
```

```php
        return view('channel.show', [
            'channel' => $channel
        ]);
    }
```
